

This map is 6 printed pages wide by 5 printed pages high. There are 30 individual sections to put together. Anyone can make this for free (with cost of ink or whatever) I estimate it'll take 2-3 hours to put it together after it's all printed out.

I formatted these printouts so that the pages overlap from east to west and from south to north. I made these overlaps so that you can trim the sides without worrying about losing map area.

I will provide a detailed instruction set below (the map is designed to be put together in a specific way). I'm also providing a grid guide here (you'll need it).

INSTRUCTION

Part 1: The Bottom Row

- 1.) Start in Section F5. Trim the bottom and right sides to fit the map. Then trim the left and top sides so that no white remains (these sides will overlap on sections F4 and E5).
- 2.) Move to Section E5. Trim the bottom edge to fit the map. Then trim the right side so that a small amount of white remains (this will go under section F5). Then trim the left and top sides so that no white remains (these will overlap on sections E4 and D5)
- 3.) Tape sections F5 and D5 together.
- 4.) Move to section D5. Trim the bottom edge to fit the map. Then trim the right side so that a small amount of white remains (this will go under section E5). Then trim the left and top sides so that no white remains (these will overlap on sections D4 and C5).
- 5.) Tape sections D5 and E5 together.
- 6.) Move to section C5. Trim the bottom to fit the map. Then trim the right side so that a small amount of white remains (this will go under section D5). Then trim the left and top sides so no white remains (these will overlap on sections C4 and B5).
- 7.) Tape sections C5 and D5 together.
- 8.) Move to section B5. Trim the bottom to fit the map. Then trim the right side so that a small amount of white remains (this will go under section C5). Then trim the left and top sides so that no white remains (these will overlap on sections B4 and A5).
- 9.) Tape sections B5 and C5 together.

Part 2: Central Pearl Creek

- 10.) Move to section F4. Trim the right edge to fit the map. Then trim the bottom so that a small amount of white remains (this will go under section F5). Then trim the left and top sides so that no white remains (these will overlap on sections F3 and E4).
- 11.) Tape sections F4 and F5 together.

- 12.) Move to section E4. Trim the right and bottom sides so that a small amount of white remains (these will go under sections F4 and E5). Then trim the left and top sides so that no white remains (these will overlap on sections E3 and D4).
- 13.) Tape sections E4, F4 and E5 together.

Part 3: North South Vale

- 14.) Move to section C4. Trim the right and bottom sides so that a small amount of white remains (these will go under sections D4 and C5). Then trim the left and top sides so that no white remains (these will overlap on sections C3 and B4).
- 15.) Tape sections C4 and C5 together.
- 16.) Move to section B4. Trim the right and bottom sides so that a small amount of white remains (these will go under sections C4 and B5). Then trim the left and top sides so that no white remains (these will overlap on sections B3 and A4).
- 17.) Tape sections B4, C4 and B5 together.
- 18.) Move to section D4. Trim the right and bottom sides so that a small amount of white remains (these will go under sections E4 and D5). Then trim the left and top sides so that no white remains (these will overlap on sections D3 and C4).
- 19.) Tape sections D4, E4, D5 and C4 together.

Part 4: West South Vale

- 20.) Move to section A4. Trim the left to fit the map. Then trim the bottom and right sides so that a small amount of white remains (these will go under sections B4 and A5). Then trim the top so that no white remains (this will overlap on section A3).
- 21.) Tape sections A4 and B4 together.
- 22.) Move to section A5. Trim the bottom and left sides to fit the map. Then trim the right side so that a small amount of white remains (this will go under section B5). Then trim the top so that no white remains (this will overlap on section A4).
- 23.) Tape sections A5 and A4 together.
- 24.) Move to section A3. Trim the left to fit the map. Then trim the bottom and right sides so that a small amount of white remains (these will go under sections B3 and A4). Then trim the top so that no white remains (this will overlap on section A2).
- 25.) Tape sections A3 and A4 together.

Part 5: Lake Side

- 26.) Move to section B3. Trim the right and bottom sides so that a small amount of white remains (these will go under sections C3 and B4). Then trim the left and top sides so that no white remains (these will overlap on sections B2 and A3).
- 27.) Tape sections B3, A3 and B4 together.

- 28.) Move to section C3. Trim the right and bottom sides so that a small amount of white remains (these will go under sections D3 and C4). Then trim the left and top sides so that no white remains (these will overlap on sections C2 and B3).
- 29.) Tape sections C3, B3 and C4 together.
- 30.) Move to section C2. Trim the right and bottom sides so that a small amount of white remains (these will go under sections C3 and D2). Then trim the left and top sides so that no white remains (these will overlap on sections C1 and B2).
- 31.) Tape sections C3 and C2 together.

Part 6: South Central Silent Hill

- 32.) Move to section D2. Trim the right and bottom sides so that a small amount of white remains (these will go under sections E2 and D3). Then trim the left and top sides so that no white remains (these will overlap on sections C2 and D1).
- 33.) Tape sections D2 and C2 together.
- 34.) Move to section D3. Trim the right and bottom sides so that a small amount of white remains (this will go under sections D4 and E3). Then trim the left and top sides so that no white remains (these will overlap on sections C3 and D2).
- 35.) Tape sections D2, D3, C3 and D4 together.

Part 7: Shepherd's Glen

- 36.) Move to section E3. Trim the right and bottom sides so that a small amount of white remains (these will go under sections F3 and E4). Then trim the left and top sides so that no white remains (these will overlap on sections E2 and D3).
- 37.) Tape sections E3, D3 and E4 together.
- 38.) Move to section F3. Trim the right to fit the map. Then trim the bottom so that a small amount of white remains (this will go under section F4). Then trim the top and left sides so that no white remains (these will overlap on sections F2 and E3).
- 39.) Tape sections F3, E3 and F4 together.
- 40.) Move to section F2. Trim the right to fit the map. Then trim the bottom so that a small amount of white remains (this will go under section F3). Then trim the left and top sides so that no white remains (these will overlap on sections F1 and E2).
- 41.) Tape sections F2 and F3 together.
- 42.) Move to section E2. Trim the right and bottom sides so that a small amount of white remains (these will go under sections F2 and E3). Then trim the left and top sides so that no white remains (these will overlap on sections D2 and E1).
- 43.) Tape sections F2, E2, D2 and E3 together.

Part 8: Caldecotte Woods

44.) Move to section B2. Trim the right and bottom sides so that a small amount of white remains (these will go under sections C2 and B3). Then trim the left and top sides so that no white remains (these will overlap on sections A2 and B1).

45.) Tape sections B2, C2 and B3 together.

46.) Move to section A2. Trim the left side to fit the map. Then trim the right and bottom sides so that a small amount of white remains (these will go under sections A3 and B2). Then trim the top so that no white remains (this will overlap on section A1).

47.) Tape sections A2, B2 and A3 together.

Part 9: The Top Row

48.) Move to section C1. Trim the top to fit the map. Then trim the right and bottom sides so that a small amount of white remains (these will go under sections C2 and D1). Then trim the left side so that no white remains (this will overlap on section B1).

49.) Tape sections C1 and C2 together.

50.) Move to section D1. Trim the top to fit the map. Then trim the right and bottom sides so that a small amount of white remains (these will go under sections D2 and E1). Then trim the left side so that no white remains (this will overlap on section C1).

51.) Tape sections D1, D2 and C1 together.

52.) Move to section E1. Trim the top to fit the map. Then trim the right and bottom sides so that a small amount of white remains (these will go under sections E2 and F1). Then trim the left side so that no white remains (this will overlap on section D1).

53.) Tape sections E1, D1 and E2 together.

54.) Move to section F1. Trim the top and right sides to fit the map. Then trim the bottom side so that a small amount of white remains (this will go under section F2). Then trim the left side so that no white remains (this will overlap on section E1).

55.) Tape sections F1, E1 and F2 together.

56.) Go to section B1. Trim the top to fit the map. Then trim the right and bottom sides so that a small amount of white remains (these will go under sections B2 and C1). Then trim the left side so that no white remains (this will overlap on section A1).

57.) Tape sections B1, B2 and C1 together.

58.) Move to section A1. Trim the left and top sides to fit the map. Then trim the right and bottom sides so that a small amount of white remains (these will go under sections A2 and B1).

59.) Tape sections A1, A2 and B2 together.
